"The collection of coins has not only become an infatuating and engrossing pursuit among thousands of persons of all ages and either sex, but out of it has grown up an extensive trade, furnishing the means of livelihood to numerous individuals in all our large cities. Prices have risen a hundred fold, in some cases almost incalculably; unreasonably; and speculation has been rife . . .

(from The American Journal of Numismatics, Vol. 1, No. 1, May, 1866.)

OUR TERMS OF SALE

1. All coins are guaranteed genuine. I will replace or issue a refund for any coin found not to be genuine. This is a lifetime guarantee.
2. All attributions are guaranteed correct. Also a lifetime guarantee. I will issue a refund or if available provide a replacement for any coin found to be mis-attributed.
3. A fourteen day return privilege is allowed on all purchases. Returns may be made for any reason, or for no reason. My business depends on attracting repeat customers. It does neither one of us any good for you to keep a coin with which you are not completely satisfied. I am confident that the overall quality and value of the material I offer here is second to none. This does not mean that you might not order a coin that fails to satisfy your personal taste or desire. It is even possible for me to have missed a defect or to have been optimistic about the grade. It can happen. But it is not my intention.
4. Approval service is also available to established clients. Seven days inspection is allowed on approval service at which time the coin must be returned or funds remitted. Approval sales are considered final after the seven days. Extensions are available upon request. We also accept VISA or MASTERCARD with a 2% charge back.
5. All orders are sent postpaid.
6. Strict ANA and EAC guidelines are followed in grading.

In addition to strict ANA and EAC guidelines I have introduced "value" or "net" grading into my descriptions. Sharpness or technical grade according to ANA standards is fairly easy to describe with consistency. However most old copper coins have acquired defects over time that detract from the overall desirability of the coin. I describe these defects and deduct from the technical grade based on their presence. As an example a coin might be described: "1805 S-267 VF20. Sharpness of VF30 with smooth brown

surfaces, some light pin scratches where corrosion was removed at K1 reverse." Here is a coin VF30 by ANA standards but with scratches at one o'clock on the reverse. Plainly the coin would be more desirable were the scratches not present. I describe the defects and deduct ten points from the overall grade. The first grade listed represents the net or value grade. Clearly this is an art and elements of subjectivity are inevitable. Where there is no second grade listed it is my opinion that the net grade is the same as the sharpness grade. Perhaps not perfection but whatever marks present have been judged to be consistent with the technical grade of the coin and do not detract from the net grade. The intent is for you to have as close an idea as possible of the overall condition of the coin you may wish to purchase.

7. I attempt to give a rarity rating for each variety listed. These in large part reflect the current EAC ratings as compiled in Jack Robinson's Copper Quotes. I also offer opinions relative to condition census ratings, die state, and condition rarity. These change constantly as new coins are discovered and reported. I attempt to use the latest data or information available. Still these ratings cannot be 100% accurate and remain a matter of opinion only. Having said this I can also say with confidence that more information and more research is available on Early Copper than any other area of American Numismatics. Large cents have been actively collected and researched for more than one hundred years. One can therefore have a high degree of confidence in the general accuracy of current information. I urge all my clients to form the numismatic library necessary to allow them to make informed judgements and purchasing decisions. It is foolish to invest money in coins if you have not already invested in the books and other sources necessary to the full enjoyment of them.

8. Serious collectors, who have formed a discriminating collection over a period of years. Often realize a substantial profit when their collection is ultimately sold. However, coin collecting should not be confused with "investment".

Most collectors find that the enjoyment, education, and friendships formed as a result of their collecting pursuits have been their greatest reward. It is much easier to lose money quickly than to make money quickly in rare coins. If you are not willing to undertake the educational process necessary to make well informed decisions regarding your collection you will almost certainly lose. Coin investment gurus are often more than willing to give advice. Think about it. If you ask a cat which canary to buy remember his primary concern may not be how well it sings. There are many opportunities to do well financially in rare coins. But as with any other medium of investment, success is the result of a combination of knowledge, good timing and the ability to wait for the right time to sell. Commit yourself to the process of becoming an educated collector and you stand a good chance of success.

COLONIALS

(1688) AMERICAN PLANTATION TOKEN NEWMAN

(High R-6) EF45 \$1,750.00

1-A BREEN 80-ORIGINAL HB REX. 142.5 gns. An unquestionable original of the first coinage officially and exclusively authorized for England's North American Colonies. Breen suggested this obverse, with the abbreviated HB rather than HIB, may have been the first die created for the issue. The current piece is among the nicer examples extant. It is virtually free of tin pest and evenly toned a medium silver gray with ample remaining gloss. a straight clip from 1:30 to 3:00 obverse does not affect any of the legends. Each side has a small natural planchet void near the center. Several vertical scratches left of the obverse horse are fully toned. The HB REX Type is nearly as rare as the more famous sideways four type. An underappreciated rarity in an under appreciated series.

1722 WOOD'S HIBERNIA HALPENNY-TYPE I, HARPLEFT BREEN 144 AU58 \$1,200.00

A true slider UNC with just a trace of cabinet friction preventing it from grading at least MS64, as its surfaces are both hard and immaculate. Brilliant light brown toning, a true prize. This variety has 9 harp strings.

1724 WOOD'S HIBERNIA HALPENNY BREEN 166 EF45 111.1gns. \$650.00

The scarcest regular issue Wood's Hibernia date. Problem free highly glossy light chocolate brown surfaces. Eleven harp strings. A choice example of this key date.

1760 VOCE POPULI HALPENNY \$350.00

N.3 "VOOE" R3 VF30. The obverse is near perfect, smooth and glossy with detail approaching Extremely Fine. The reverse has a weaker strike and is overall rougher in appearance. Both sides are a pleasing light brown and damage free.

1760 VOCE POPULI FARTHING-LARGE LETTERS NELSON 1 (High R-5) VF30 47.4 gns. \$1,500.00

A denomination that is many times scarcer than the normally encountered halfpennies. Choice for the grade. Light chocolate brown toning on an essentially perfect planchet. Smooth, glossy, and problem free.

1760 VOCE POPULI HALPENNY \$1,950.00

N.4 R1 MS63 111.6 gns
A remarkable coin with brilliant honey brown surfaces and all details sharply etched in high relief. Absolutely problem free, and essentially impossible to improve on.

(1667-1669) SAINT PATRICK FARTHING B.208 G1-4/1b VF35 95.8 gns \$2,950.00

Twelve examples traced with this topping the list. Perfect for the grade, with some claim to full EF, and perfect for Type in addition to being the finest known of its variety. Light brown, smooth, glossy, perfectly centered and evenly struck, problem free also with a large bright splash.

1785 CONNECTICUT M.3.1-A MBR \$125.00

R4 F12 141.6 grains. Light golden brown with fine porosity. Centers show detail of at least a Strong Fine but with peripheral weakness.

1785 CONNECTICUT M.4.4-C MBR \$125.00

R3 F12 129.1 grains. Light chocolate brown with light granularity. the obverse is relatively free of striae for a 1785 issue while the reverse has two long narrow striations and some assorted other striae. A small clip at 1:00 takes the bottom off the 5 of the date.

1786 CONNECTICUT M.5.2-1 MBL \$175.00

R4 F12 117.9 grains. Dark olive brown but remarkably smooth and glossy. Striated at obverse center and flawed at first N of legend. Bold legends and date.

1786 CONNECTICUT M.5.3-N MBL \$2,450.00

R2 EF40 130.2 grains. The "Hercules Head" Type. a superb problem free example of this major Type struck from the late state of the reverse die. Chocolate brown glossy surfaces. Clashing is evident in all the legends and it is dateless due to the die state. This coin is finer than any of the Perkins coins, and far nicer than the late die state example in that collection. This coin is suitable for the finest of Type collections.

1787 CONNECTICUT M.1.1-A MBR \$350.00

R3 VF20 110.7 grains. The Small head/ ETLIB INDE Type. Mixed deep olive browns and greens, both sides evenly granular but not dull. One scratch right of reverse figure in field. Clear legends and date.

1787 CONNECTICUT M.4-L MBL \$150.00

R1 VF20 113.9 grains. The "Horned Bust". Early intermediate die state. her the horn is just starting to form in the left obverse field, but is still fairly small. Dark brown fields, raised points slightly lighter. Very small cut in the rim at 12:30.

1787 CONNECTICUT M.19-g.4 DBL \$75.00

R3 VG10 119.7 grains. Even chocolate brown on essentially smooth surfaces. Late die state with the bulge covering the top of the date, but the legends are full and clear.

1787 CONNECTICUT M.32.2-X.2 DBL \$900.00

R3 (PCGS XF40) AU50. This in fact is the Jesse Patrick coin lot #125. "Superb light chocolate brown surfaces with hard mirror like gloss. One small pit between the 7 and the 8 of the date, otherwise flawless. This coin has suffered no misdeeds at the hands of men, it is absolutely problem free. Simply a splendid coin, solidly in the census for this variety.

1787 CONNECTICUT M.33.17.-gg.2 DBL \$395.00
R5 VF20 125.2 grains. an ET LIR Type. a pleasing light chocolate brown coin with some details fully VF. Surfaces are smooth and glossy, with very few marks on them. Struck low obverse, high reverse. Quite attractive.

1787 CONNECTICUT M.33.2-Z.17 DBL \$550.00
R6 VF20 136.4 grains. A rare variety, with just 25 specimens traced. Predominantly light brown with darker shadowing by the legends, the obverse is smooth and reflective with a single scratch at the neck. The reverse center however has been scraped by numerous significant scratches. The characteristic reverse left die break is clear and unaffected.

1787 CONNECTICUT M.33.5-T.2 DBL \$195.00
R5 VG10 133/2 grains. A skeleton Hand Type. An out and out lovely coin. This coin is as perfect as a coin can realistically be at this grade. A honey brown glossy problem free planchet with an even strike perfectly centered upon it. Ex. M & G 11/02 C4 Sale Lot #294.

1787 CONNECTICUT M.33.7-r.2 DBL \$350.00
R1 VF30 131.1 grains. a common variety in uncommon condition, ideal as a Type coin for a Draped Bust Left Connecticut Copper. Light brown with hard glossy surfaces. Well and evenly struck with crisp legends and date.

1787 CONNECTICUT M.33.7-r.2 DBL \$95.00
R1 F12 144.8 grains. A pleasing coin with very fine granularity but very reflective dark and medium brown surfaces. All legends and date strong and full.

1787 CONNECTICUT M.33.15-r.1 DBL \$250.00
R2 VF25 141.3 grains. A glossy and attractive coin with light chocolate devices, and toning that darkens as it moves out towards the rims. Essentially free of surface marks.

1787 CONNECTICUT M.33.19-Z.1 DBL \$265.00
LOW R4 F12 108.7 grains. From the late obverse die state. Nice detail and glossy for the grade with a pleasing mix of darker and lighter browns. The obverse die here showing incusations in left obverse field and bulging from below the front part of bust through the area above AUCTORI.

1787 CONNECTICUT M.33.2-Z.5 DBL \$395.00
R1 VF35 137.8 grains. Dark brown surfaces. Fully struck on a nice round planchet. Reverse shows a horizontal die crack from bottom of D through end of branch and on to waist. Free of marks and scratches.

1787 CONNECTICUT M.33.29-Z.7 DBL \$585.00
R6 VF20 125.2 grains. The surfaces on this coin are essentially choice tan, glossy. This is however a difficult coin to describe due to the elliptical flan it is struck on, as well as the advanced, deteriorated state of the obverse which shows extensive die bulging. There are myriad light die breaks including one from effigy's chin and fainter ones also in the lower left obverse field. The reverse is without detail in the lower drapery as well as the date area due to striations in the planchet at that point. Still a highly pleasing coin in fact.

CONDITION CENSUS LEVEL
1787 CONNECTICUT M.33.38-Z.23

1787 CONNECTICUT M.33.38-Z.23 DBL \$600.00
HIGH R5 VF30 138.3 grains. Light chocolate brown with a scattering of fine porosity. Some natural planchet roughness on the central devices of each side, with perhaps a few minor contact marks mixed in. Strong date and legends. Though not choice this coin has an overall pleasing appearance. The Hall/Hessberg Choice VF coin is more evenly struck, this one is stronger where struck up. Since some have called the Hessberg coin "finest known", the current coin at the very least would be difficult to improve on.

1787 CONNECTICUT M.33.9-s.2 DBL \$175.00
R2 F12 138.8 grains. A solid and attractive coin for the grade, with choice medium brown surfaces and no problems of any consequence.

1787 CONNECTICUT M.37.3-i DBL \$95.00
R5 F18 134.5 grains. Tan on a reasonably smooth planchet. Full clear legends and date.

1787 CONNECTICUT M.37.5-E DBL \$340.00
R3 VF25 138.8 grains. Pale golden brown smooth surfaces that are sprinkled with some micro striae. Very well centered and evenly struck, free of marks.

1787 CONNECTICUT M.37.11-ff.2 DBL \$550.00
R5 VF25 165.6 grains. An ET LIR variety, an attractive example of this variety, and an attractive coin period. Also an important example of this variety which seldom comes in upper grades. Toned a light golden brown with smooth and attractive surfaces. One finer than the more striated VF Perkins coin which was there called technically in the top ten. Finer too than the Taylor coin. Surpassed by the Oechsner VF and by the Pine Tree EAC 75 coin, which though striated, had very sharp detail. This coin should make the low end of the Condition Census.

1787 AU50 R2 \$1,450.00

MASSACHUSETTS HALF CENT RYDER 4-c. Nicely cleaned and retoned. Medium chocolate brown. Some scratches left of bow. A longer one in field down from Indian's hand.

CONDITION CENSUS 1787 RYDER 1-D

1787 MASSACHUSETTS HALF CENT RYDER 1-D
High R4 AU58 75.9 gns \$4,250.00
An exquisite example of this scarce Half Cent, that undoubtedly is within the Condition Census of the top 6 coins known of this variety. This coin was purchased in 1986 from James King as an AU coin (the back of that envelope has Jim McGuigan's name and address typed onto it). That was back in the days when the mere hint of cabinet friction kept coins from grading Mint State, and that is all this coin has. It still has ample traces of faded mint color within the legends and date. It predominantly a medium olive brown, the surfaces are hard and nearly immaculate. A faint hairline scratch runs from the beak of the eagle touching the left wing edge to the base of the letter A. It is almost invisible and it is by far the most prominent contact mark on this coin. In notes Mike Packard prepared for a C4Conventio seminar on Massachusetts Coppers he noted this variety is "tough above VF". This coin is a true gem.

1786 NEW JERSEY M.12-G R5 AG3 \$350.00
No Coulter Type. Pleasing light brown surfaces that look reasonably smooth even if they do have fine granularity. Only random letters of the legends are legible but the central features, including the No Coulter plow, can easily be seen.

1786 NEW JERSEY M.17-K R3 F12 \$295.00
OVERSTRUCK. 105.7 grains. Dark olive brown and likely once polished. Strong elements of the undertype, in this case a British Halfpenny which is undoubtedly a counterfeit given the weight of this planchet. On the obverse an exergue line from the halfpenny is seen between 12:00 and 3:00 above which traces of a date, seemingly either 1773 or 1775, are present, while BRITANI is quite clear around part of the plow.

1786 NEW JERSEY M.24-P R2 AU50 \$1,750.00
135.1 grains. Light brown with wonderful gloss and uniformly crisp details on each side. Totally free of problems, it does however have some scattered micro striae including a touch on the high points of the horse head, a small area of natural roughness at the center of the shield is typical for high end pieces. Close to Condition Census for the variety.

1787 NEW JERSEY M.6-c R4 EF40 \$6,250.00
Beautiful hard glossy olive brown. Well struck on an exceptionally broad flan with full sawtooth dentilation on the obverse. Virtually mark free surfaces. Breen called this a "Pattern" reverse. Ex. FCC Boyd-John Ford.

1787 NEW JERSEY M.31-L R2 AU50 \$2,950.00
Glossy olive brown, hard smooth surfaces with some minute retained laminations, remarkably bold strike with the horse's mane and reverse shield fully detailed. A tiny nick in obverse field before the horse's neck the only mark worth noting. Great pedigree. Ex. United States Coin Company, 4/29/13:247. Hillyer Ryder Collection (with tag) FCC Boyd-John Ford.

1787 NEW JERSEY M.34-J R2 VF30 \$250.00
144.6 grains. The "Deer Head" Type. Matte like virtually silvery gray surfaces. Porosity most likely from time spent underground. The deer head still stands out strongly, and it is such a noble beast, that the obverse remains pleasing. Struck from the early die states with a full clear date.

1787 NEW JERSEY M.37-f R4 F12 \$225.00
137.0 grains. A "Goiter" Variety. A very hard variety to find decent or in upper grades, a six coin condition census would include two or more coins in the VF range. This coin is certainly decent for the variety. Light brown microscopically porous, but not corroded. The surfaces of this coin remain nicely reflective.

1787 NEW JERSEY M.44-d R4 F15 \$275.00
141.8 grains. Deemed "The Sleigh Rider" obverse by Maris due to the distinctive curving shape of the plow beam. Dark olive brown fields with raised points closer to tan. Despite a few roller striae the surfaces are quite smooth and nicely reflective. Full strong legends and date.

CHOICE 1787 M.63-s

1787 NEW JERSEY M.63-s R1 EF40 \$950.00
138.6 grains. A Large Planchet Variety. A choice coin for the grade, struck on a smooth glossy olive brown planchet with just light natural texture to its surfaces, and a few tiny contact marks scattered between the two sides. While some early strikings of this and other Large Planchet varieties can show relatively bold central detail on both sides, typically that is not the case, late strikings can be remarkably weak at both centers, the shield in particular is lightly engraved in the dies. The strike on this coin is in the middle of that range, but stronger than most.

1787 NEW JERSEY M.64-t R1 VF25 \$135.00
140.1 grains. Struck on a Large Planchet. Sharp detail on a rough planchet. Dramatically set inside a full ring of dentils on each side.

NEW JERSEY SUPERB RUNNING FOX
EX. GEORGE H. EARLE-HILLYER RYDER-FCC BOYD

1788 M.77-dd AU50 \$1,750.00
Lovely light brown with lustrous surfaces. Fully struck with a finely detailed mane. Fully struck horizontal and vertical shield lines, a full date and more importantly a fully struck running fox on the reverse. A couple tiny ties on the horse's neck. The finest running fox I have seen. Hillyer Ryder graded this coin "extremely fine" and noted "possibly the finest specimen known." Comes with a tag in Ryder's hand. Ex. George H. Earle collection, Henry Chapman 6/25/12:2120-Hillyer Ryder-FCC Boyd-John Ford.

1787 VT R.13 R1 EF40 \$295.00
89.0 grains. The BRITANNIA Type. A Mailed Bust Right Type. This coin is struck on an unusually broad and unusually light planchet, making it also unusually thin. Medium tan. Very sharp details but surfaces are slightly granular.

1788 VT RYDER 20 EF45 \$1,500.00
Choice brown. Few very minor hairlines. Excellent eye appeal

1747 MACHIN'S MILLS VLACK I-47A \$350.00
R5 VF20 89.1 grains. Sharp details but on a rough planchet. Dark gold olive toning and actually highly reflective despite extensive granularity. Ragged clip at obverse 9:00 to 11:00. Sharp full legends. Bold full date. This is the only Machin's Mills Imitation halfpence patterned after George II coinage. The only one dated to precede the 1770's, and the only one with the Bust facing left.

1771 MACHIN'S MILLS V.2-71A \$295.00
R4 F18 121.4 grains. Chocolate and brown. Free of flaws and striations or marks of much significance. Minor surface roughness.

1774 MACHIN'S MILLS V.8-74A \$225.00
R4 F12 114.1 grains. A pleasing and glossy example, with even chocolate brown toning and no problems aside from some fine granularity. Full clear legends and date.

1788 MACHIN'S MILLS V.23-88A \$350.00
R2 VF20 109.0 grains. Your basic choice VF coin. Predominantly light olive toning. Glossy and as smooth as late die states allow. There is some unusual rose colored toning below the legends in part between 11:00 clockwise to 4:00.

1775 IMITATION GEORGE III BRITISH \$250.00
FARTHING EF40. 33.3 grains. Choice glossy chocolate brown. Nicely centered and well struck. The date is complete and strong.

1774 IMITATION GEORGE III BRITISH \$75.00
HALFPENNY VF25 Repunched 1. 127.5 grains. Ten points sharper but covered with uniform microscopic granularity. No verdigris or marks. Slightly glossy dark steel with lighter steel brown highpoints. The date and legends are very sharp. The 1 in the date was initially punched too low, then corrected.

1784 AMERICAN IMITATION BRITISH HALFPENNY
VLACK 14-84A BREEN 974 R6 F15 \$950.00
91.6 gns. Evenly toned chocolate brown planchet though the surfaces are matte like from extremely fine microscopic porosity. The obverse figure is fully outlined, and the legends are virtually complete though faint at a couple of letters. Reverse legends are full, and strong on the left side. The date is strong also. The reverse figure is almost uniformly weak but virtually complete.

1795 AU5 \$1,550.00
LIBERTY AND SECURITY PENNY 301.5 gns. Chocolate brown toning, with brilliant gloss off hard surfaces. There is very little rub on this coin, but there are a few light contact marks in the obverse fields, and a few short scratches on or near the reverse shield, all worth noting but not worth much concern. Ex. Stack's 9/98 Sale Lot 110 . Ticket included.

1783 WASHINGTON & INDEPENDENCE \$650.00
SMALL DATE WITHOUT BUTTON. BREEN-1191 IN COPPER. PCGS GRADED AU55. Steel brown and chocolate. The only defects are some tiny specks of verdigris at the NG in WASHINGTON. Sharply struck. Struck from the lapped obverse die with voids in several letters of INDEPENDENCE.

HALF CENTS

1794

1794 C-5a R4+ F12 \$1,650.00
SMALL EDGE LETTERS. 5 points sharper. Glossy medium brown and chocolate, the highpoints a darker shade of steel brown. The surfaces are smooth, completely free of corrosion or planchet flaws. The notable marks are a small rim bruise under the 1 in the date and a rather strong pinprick in the center of the reverse. Otherwise this piece is very nice for the grade. EDS, Manley state 1.0 The reverse is rotated 45 degrees CW.

1794 C-5a R4+ VF20 \$5,500.00
VF30 Medium chocolate brown. Smooth surfaces. A couple tiny obverse rim marks. A small bump opposite the cap K10 obverse. Ex. JRM. Removed from an NGC holder VF30. This is the Manley plate coin. Die state 2.0.

SHARP 1794 C-7

1794 C-7 R5+ F12 \$4,950.00
VF20 sharpness. Attractive chocolate and steel color. Minute granularity. A tiny scrape on edge K8. Virtually mark free surfaces.

1794 C-8 R5 F12 \$4,500.00
VF20. Attractive chocolate steel. There is a tiny planchet void in obverse field K8. The surface appears hard and smooth, but has been lightly polished. Manley 2.0

ATTRACTIVE 1794 COHEN-8

1794 C-8 R5 F12 \$5,650.00
Sharpness near VF20 with a fine hairline scratch from the throat down to the bust over the 4, a light rim bruise above the bust tip, another left of the date, and a small rim dent at RI in AMERICA. Nice glossy chocolate brown with steel brown toning on the highpoints. Very late die state, Manley state 2.0 late. The crack down through the second T in STATES is strong. The obverse is perfectly centered while the reverse is off a bit to K-6 creating some weakness at the bottom of the fraction. Excellent eye appeal in spite of the contact marks. Weight 100.9 grains.

1795

1795 C-1 R1 G5 \$265.00
Medium brown, glossy appearance. Date bold. Reverse weaker.

1795 C-2a R3 F12 \$875.00
Glossy chocolate and brown. Mostly problem free. Rare EDS. C-2a M1.0, no bulge.

1795 C-3 R5+ VG8 \$3,250.00
Slightly sharper with traces of very light roughness, mostly in protected areas, and a couple very tiny pitmarks on the cheek and neck. Glossy medium brown and chocolate with darker olive in protected areas. The date and legends are bold, and the two-tone appearance accents the devices. EDS, Manley state 1.0, with HALF CENT strong and the reverse rotated 25 degrees CW. Weight 78.5 grains. Ex. Stack's 5/79:8-Robison Sale, Stack's 2/82:311-Jack Robinson, Superior 1/29/89:1874-Ken Seachman 4/13/2001.

1795 C-4 R3 VG8+ \$650.00
VG10 Choice tan color with smooth glossy surfaces. A few faint hairlines on Liberty's portrait. A tiny plan flake near obverse rim K2. HALF CENT weak as usual. Great looking coin.

1795 C-4 R3 F12 \$850.00
M.2.0 LETTERED EDGE. Medium to dark glossy brown. Planchet clip between K9.5 and K11.5 obverse. Nice overall appearance.

1795 C-4 R3 VF20 \$1,250.00
Sharpness at least EF40 but the obverse is covered with tiny planchet flakes, as struck. The reverse is choice except for a small fissure at the rim over ST, also as struck, and grades EF45. The only contact mark is a faint hairline scratch hidden among the flakes in the field before the eyebrow. Glossy medium brown. MDS. Manley state 2.0 early. The reverse is rotated 5 degrees CCW. Too bad about the planchet flaws because this piece would have been choice. Weight 80.3 gns. Ex. Pete Boisvert 1/87-Ron Guth 2/11/87-Bill Weber.

1795 C-4 R3 VF25 \$1,750.00
Choice medium brown. Virtually flawless surfaces, a minute hairline K2 obverse the only visible mark. Planchet cut from end of the strip with a straight clip K3.

1795 C-4 R3 VF25 \$2,200.00
Nice glossy medium brown, the reverse with chocolate brown covering the protected areas. Would rate a slightly higher grade except for a shallow depression in the planchet running along the dentil tips at the bottom of the obverse, as struck. Otherwise the only defect is a shallow planchet flake at the rim over the first S in STATES, also as struck. Great detail and the eye appeal is excellent. MDS, Manley state 2.0, with the central reverse showing some weakness, as usual. Weight 83.3 grains.

DESIRABLE CHAIN AMERI

1793 S-1 R4 VG10 CHAIN AMERI \$10,500.00
VF20 Nice medium steel brown color. Minutely granular surfaces. A lamination line from rim K10 across top of Liberty's hair through Y to rim K1. A small rim bump K8 obverse. Very well struck for this variety. The date is sharp. The reverse. is fully struck also and presents the appearance of a VF coin.

1793 S-4 R4 F15 \$9,850.00
Hard to grade as the sharpness is fully VF30. In fact was broken from a SEGS EF40 holder, but the surfaces have been tooled to remove corrosion and the surfaces smoothed. There is a rim mark K4 obverse. And there remains some roughness on the reverse. But the color is a decent brown and the detail is very sharp. Including a full ear on Liberty's portrait.

1793 S-5 R4 VF25 \$5,500.00
EF40 with attractive olive tan to brown color. There are some tinges of red verdigris notably on the reverse where there is some pitting as well. Small mint made curved clip under date affects lower part of seven. Rims are clean with no notable marks.

1793 S-6 R3 F15 WREATH \$3,850.00
VF30 Dark steel almost black. The surface very finely and evenly corroded with an overall handsome mattelike appearance. Some old scratches in the obverse field before Liberty's face disturb the patina and are the most obvious detractions. There is a tiny bump K4 obverse. All detail sharp. Eye appeal of a VF coin. A good value.

The only contact marks of any consequence are light rim bruise at TE in UNITED and a small scuff at the top of the C in CENT that barely breaks the toning in that spot. EDS, Breen state I, before the die crack at E in LIBERTY.

1794 S-51 R5- VG10 \$850.00

F12 or slightly sharper though of course the reverse peripheries are weak. Nice smooth brown color. A few tiny pits reverse and the surfaces very lightly lacquered or waxed.

Frosty steel brown with 30% of the original red. The only defect is a short, light scratch on the rim under star 12. MDS, state b early. The obverse die was lapped leaving fine lines down to the right in the fields and removing the vertical lines at the inner and main curls. Tied with one other piece for finest known honors, and this one has more mint red. Removed from a PCGS slab graded MS64RB. Ex. Doug Bird 5/96.

1854

- 1854 N-1 R3 EF40 \$85.00
Sharpness at lest 5 points better but recolored glossy golden light olive and steel brown. The only mark is a light nick in the field left of star 11. Nicely struck E-MDS, state b early. The fields are starting to show fine flowlines and a light flowline connects the right base of the 4 to the left top of a dentil. Ex. J.R. Frankenfield, Superior 2/17/01:1810.
- 1854 N-4 R2 MS63 \$355.00
Mix of brown, gold and tan. Sharp strike. Full luster.
- 1854 N-5 R4 VF35 \$85.00
Medium glossy brown. Flake on reverse at K3 reverse.
- 1854 N-5 R4- AU58 \$375.00
REPUNCHED 18. Nice glossy medium brown and chocolate with underlying frosty mint luster in protected areas. The only marks are a tiny pinprick in the field over the nose tip and a light nick under the outer bun. EDS, state b early. The repunching at 18 is sharp, the obverse lapping lines are dull but still visible, and there are double clashmarks at the left top of O in ONE. Tied for CC#5. Ex. Pine Tree Auctions 2/15/75:1041.
- 1854 N-7 R2+ EF45 \$150.00
Glossy mahogany. Small tic left of star 1. M-LDS.
- 1854 N-10 R2+ MS60 \$375.00
Glossy light bluish steel brown with traces of underlying faded mint red on both sides, especially on the obverse. Would rate a higher grade except for a half dozen small pinpricks over NE in ONE. Otherwise this cent is choice. MDS, state d, with fine cracks from the bust through star 1 to star 2 and another from the lowest curl through stars 13 and 12 faintly to the dentils of star 11. The reverse cracks are stronger and the line from T in UNITED is faint but visible. There is a shallow low spot covering most of the neck and a small area over NE in ONE. Ex. Doug Bird, 12/94.
- 1854 N-11 R2 MS60 \$450.00
Lustrous steel brown and chocolate with at least 5% of the red remaining on the obverse, traces on the reverse. There are small speckles of darker olive toning sprinkled about the obverse, a very light diagonal nick in the field off the nose tip, and a short struck-through line over the nostril, as minted. MDS, state c early, with light flowlines joining the left base of the 1 and right base of the 4 to the tops of dentils below. The fields are slightly rough from flowlines. Fully struck on the coronet tip and hair at the ear. Ex. Denis Loring 7/89.
- 1854 N-12 R2 MS60 \$425.00
REPUNCHED 1. Frosty bluish light steel brown with at least 15% of the original mint red remaining. No spots or contact marks but both sides have significant low spots (from crud on the dies.) that blunt most of the portrait and area inside the wreath. In addition, there is a small but obvious planchet flake in the field between star 3 and the chin. Otherwise the surfaces and luster are very attractive. MDS, state b early. The dash under the 1 is dull but visible and most of the lines from the dentils under 54 and star 13 are gone, although some faint remnants remain under the right side of the 4. The fields are slightly rough from fine flowlines. Removed from an NGC slab graded MS62RB. Ex. Doug Bird 1/97.

SQUARED RIM PROOF 1854 N-12

- 1854 N-12 R2 PROOF 60+ \$4,950.00
Brown with a few splashes of faded red. Hard reflective surfaces. Broad squared rim with a full sharp strike. Unlike the often encountered "dished" rim proofs. This is clearly an authentic proof example. Every star and every dentil sharply impressed. In an NGC holder PF63BN.

1855

- 1855 N-9 R1 MS60 \$950.00
KNOB ON EAR. ITALIC 5'S. Glossy medium brown with overtones of bluish steel covering the fields and hints of faded mint red in protected areas. There is a small area of slightly darker steel toning in the field under the chin and some pinpricks right of the E in ONE. MDS, die state c, with the knob break under the T clearly raised, but the branch under the Y merely outlined by die cracks. An attractive example of this popular variety. Ex. Wes Rasmussen, Superior 2/8/98:486.
- 1855 N-9 R1 MS62 \$975.00
SLANTED 5'S KNOB ON EAR. Glossy light olive and medium brown with reddish brown undertones, mostly on the reverse. There is a tiny speck of carbon over the second 5, a tick on the rim at N in UNITED, and another on the left base of E in CENT. M-LDS, state f, with the branch of the knob under Y raised well above the surrounding area (but it is not quite fully raised). Ex. Auction #81 7/23/81:574-Doug Bird-Gary Rutenberg M& G 8/19/85:772.
- 1855 N-10 R1 AU55 \$170.00
Medium brown. Tiny bit of red reverse. No problems. M-LDS.
- 1855 N-10 R1 MS63 \$365.00
Pretty green and gold with red. No problems.
- 1855 N-11 R1 PROOF 60+ \$4,250.00
SLANT FIVES Nicely mirrored tan with a few faint hairlines, but no flaws. Very sharply struck from proof only dies. A very nice example. Light hairline scratch on cheek. A neat example overall.

1856

EQUAL FINEST KNOWN 1856 NEWCOMB-1

- 1856 N-1 R1 PCGS MS64 RED \$1,950.00
ITALIC 5. Bright original mint red just starting to mellow on the highpoints, 90% of the red remaining. There is a small spot, steel toning in the dentils left of star 2, another on the left point of star 12, and one in the dentils at the D in UNITED. A tiny planchet flake in the dentils over the second T in STATES is a good identifying mark, as struck. E-MDS, die state a. The fields are covered with microscopic die flowlines that create nice mint luster. A beautiful red gem, tied for finest known honors with one other example (which has far less mint color). EAC grade MS65. Ex. R.S. Brown, Jr. Superior 6/2/2002:1440.

1856 N-3 R1 VF35 \$85.00

Sharpness AU 50 or a bit better but there are two rim bruises at the top of the obverse and three more at the bottom of the reverse. Recolored glossy medium brown with darker olive in protected areas of the reverse. EDS, state c, with a light crack from star 2 to the ear and a faint one from the ear to the bust tip and 1 in the date. The reverse is uncracked. (Note: Pieces with an uncracked obverse, state a, are unknown and may not exist). Ex. Con Galleries 11/10/93:2468-Michael Greenspan, M & G 1/6/96:664.

1856 N-3 R1 AU58 \$285.00

Glossy light to medium brown with some frosty golden tan in protected areas. A tiny rim tick under star 1 and a speck of carbon under the E in CENT are the only marks. MDS, state d late. The cracks are stronger and the fields are lightly flowlined, but the crack at TES has not formed. The coronet over LIB is softly struck. Ex. Chris McCawley (as RVM) prior to 7/89.

1856 N-6 R1 AU58+ \$160.00

Medium brown. EDS, state a.

1856 N-7 R2 MS62 \$525.00

UPRIGHT 5. Glossy bluish steel brown with underlying very faded mint red on both sides. There is a dull scuff on the rim under the 56 and a small planchet flake on the leaf under E in STATES. EDS, state a, with no rack at the bust tip. The fields are smooth and show fine vertical lapping lines on the right side of the obverse. The reverse clashmarks are crisp. Sharp and very attractive for the grade. Ex. Doug Bird 12/94.

MOSTLY RED 1856 NEWCOMB-8

1856 N-8 R4 MS65 UPRIGHT 5 \$1,650.00

Mint red mellowing to light steel brown, about 90% of the original color remaining. There is a spot of dark toning at the tip of the coronet, a smaller spot of dark steel toning over the first T in STATES, and another under the ribbon loop. E-MDS, die state b, with a very fine die crack through MERICA. The fields are satiny and the eye appeal is excellent. CC#3. Ex. R.S. Brown, Jr. Superior 6/2/2002:1472.

1856 N-14 R1 AU55 \$175.00

Dark brown. Olive toning at star 3 and behind hair bun.

1856 N-16 R2 MS60 \$340.00

Glossy bluish steel brown with generous traces of faded red on the obverse, 20% on the reverse. There is a tiny horizontal nick right of the upper lip and speck of dark olive toning on the left point of star 11. E-MDS, state ab. The lines at the dentils under 185 and star 1 are gone (Newcomb's old #15). The coronet over LIB is a bit softly struck. Ex. Doug Bird 11/94.

1856 N-20 R3- AU50 \$165.00

Medium chocolate brown. Tic on cheek and left of ear. EDS, state a.

1857

1857 N-1 R1 NGC MS64RB \$950.00

Mellowed mint red fading to bluish steel brown, more than half the red remaining, mostly on the obverse. The obverse is virtually flawless but the reverse is covered with tiny planchet chips or lint marks caused by debris on the die. A tiny nick on the chin and a small carbon spot in the dentils at the bottom of the reverse are the notable marks. EDS, die state a early. The top of the stray 18 is clearly visible in the dentils under the 8. EAC grade MS62. Ex. R.S. Brown, Jr., Superior 6/2/02:1531.
